No nukes in Gulf of Bothnia and the Quark area

We, the undersigned, hereby express our deep concern over the plans of the company Fennovoima for a Finnish-Russian nuclear power plant in Pyhäjoki. We distance ourselves from any establishment of nuclear power in the Gulf of Bothnia and the Quark area.

The network Nuclear Free Gulf of Bothnia (Kärnkraftsfritt Bottenviken) will use the lists in the continued opinion work. The petition, which was started March 17, 2014 will continue until the Pyhäjoki project is stopped.

Please send completed lists to: Lena Lagerstam, Coordinator, Network Nuclear Free Gulf of Bothnia, Ytterträskvägen 90, 950 42 MORJÄRV – Sweden
